About IOPscience

IOPscience is an online service for journal content published by [IOP Publishing](#). IOPscience embraces innovative technologies to make it easier for researchers to access scientific, technical and medical content.

What makes IOPscience different?

IOPscience has been designed to make it easy for researchers to discover relevant content and manage their research information.

With IOPscience you can:

- **Speed up your research:** find relevant content quickly with enhanced search filtering
- **Save time:** re-run previous searches, tagging your favorite articles
- **Keep up to date:** receive RSS feeds and email alerts when new content is published
- **Access more content:** view articles plus preprints and news

Open access

[Home](#) > [Open access](#)

IOP Publishing endorses the goal of universal access to research in the physical sciences

Visit our [Open Physics](#) site to learn more about the ways we are supporting open access to enable wider and faster access to physical sciences research.

Open access options at IOP Publishing

IOP Publishing provides a range of options to enable authors to publish their work on an open access basis, with all of our journals ensuring the same high-standard of peer review and publication.

Many institutions and research funders have stated policies on open access and we advise authors check these before submitting an article. Information on policies at some institutions and funders can be found at [SHERPA Juliet](#) or [ROARMAP](#).

Transformative and institutional open access agreements

IOP Publishing has established agreements to enable authors from a variety of institutions to publish on an open access basis at no cost to themselves. Further details about these agreements can be found on our [transformative agreement hub](#).

You can use [IOPP Journal Finder](#) to see if you might be covered by a transformative agreement.

Gold open access

Authors can make their final published article immediately free to read and reuse by others in all of IOP Publishing's primary research journals and many of the journals we publish on behalf of our society partners.

Subject collections

Al dar clic en **Subject collections** (colecciones por área) veremos artículos publicados en cualquier revista que traten sobre estos temas específicos compilados por áreas temáticas.

Subject collections

Discover the latest research published in your subject area from across our portfolio of leading journals, an award-winning digital book programme, conference proceedings and expert science journalism.

The end-to-end conference publishing and hosting solution

IOP Publishing is one of the world's largest conference proceedings publishers, providing organisers and authors with a fast, easy to use and effective publication process

We publish research presented and discussed at prestigious conferences in physics and related subjects around the world. Key topics include physics, materials science, environmental science, bioscience, engineering, computational science and mathematics.

In 2021 we are relaunching our proceeding service with a brand new suite of tools that offer seamless management of each stage of the process as well as the option to host your conferences online.

Effective Science Communication (Second Edition)

A practical guide to surviving as a scientist

En diferentes formatos

Download ebook

Being a scientist in the 21st century can be extremely demanding. In addition to conducting exceptional research we are expected to communicate it effectively to a variety of audiences, from scientists and students to policymakers and press officers. This book provides a roadmap for how to disseminate your research findings in an engaging manner via a range of channels, such as scientific publications, press releases, social media and outreach. Furthermore, by providing advice and worked examples on how to fund and publish your research, develop additional skills and support inclusive practices, this book provides a comprehensive handbook for how to be a successful scientist. This second edition brings the text up to date and includes additional material, while retaining the combination of clear insight and practical advice that made the first edition essential.

[Contact us](#)

IOP Publishing invites reviewers to co-review

Co-review allows two people to collaborate on a reviewer report, with both receiving recognition. We offer co-review in the hope that early career researchers with limited experience of peer review can work together with more experienced colleagues or supervisors to build their peer review competency.

Volunteer reviewers

If you already have experience of peer review, you can volunteer to review for our journals. We recommend that early career researchers and first time peer reviewers complete our free online Peer Review Excellence training if they want to be invited to review for IOP journals.

Translation with Editing

Don't get lost in translation! Our academic translators and editors offer subject-specific expertise and superior editing skills to ensure that your manuscript accurately conveys every nuance of your research in perfect scientific English to a global audience. Our aim is simple: deliver a manuscript that journal editors, reviewers and readers find indistinguishable from those written by native English speakers.

We offer subject-specific translation with English Editing for the following language pairs.

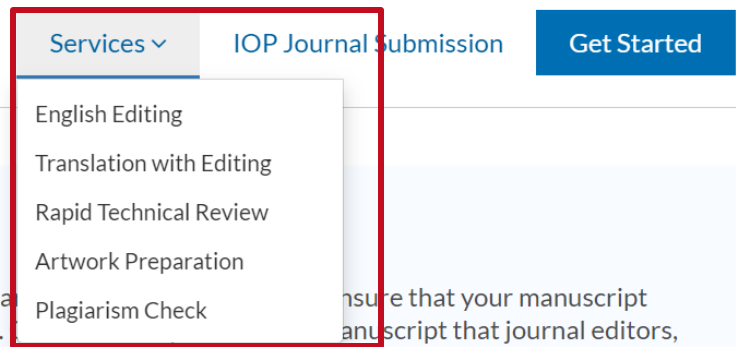

- Traditional or Simplified Chinese to English
- Japanese to English
- Spanish to English
- Brazilian Portuguese to English
- Korean to English
- Turkish to English

Abstract **Resumen del artículo**

We analyze the evolution of the scientific consensus on anthropogenic global warming (AGW) in the peer-reviewed scientific literature, examining 11 944 climate abstracts from 1991–2011 matching the topics 'global climate change' or 'global warming'. We find that 66.4% of abstracts expressed no position on AGW, 32.6% endorsed AGW, 0.7% rejected AGW and 0.3% were uncertain about the cause of global warming. Among abstracts expressing a position on AGW, 97.1% endorsed the consensus position that humans are causing global warming. In a second phase of this study, we invited authors

Abstract

We analyze the evolution of the scientific consensus on anthropogenic global warming (AGW) in the peer-reviewed scientific literature, examining 11 944 climate abstracts from 1991–2011 matching the topics 'global climate change' or 'global warming'. We find that 66.4% of abstracts expressed no position on AGW, 32.6% endorsed AGW, 0.7% rejected AGW and 0.3% were uncertain about the cause of global warming. Among abstracts expressing a position on AGW, 97.1% endorsed the consensus position that humans are causing global warming. In a second phase of this study, we invited authors to rate their own papers. Compared to abstract ratings, a smaller percentage of self-rated papers expressed no position on AGW (35.5%). Among self-rated papers expressing a position on AGW, 97.2%

Figure 5.

Final BLENDER rendered view of the H I iso-intensity contours in HCG 91 observed by the VLA (first exported to X3D using MAYAVI) generated using the PYTHON script provided as supplementary material to this article. An [animation](#) of this figure is available.

Figuras Interactivas

Figure 3. H I gas distribution and kinematics of the compact group of galaxies HCG 91 observed by the VLA. Individual intensity iso-contours at 1.3, 2.5, 3.5, and 6.0 mJy/beam are fitted in 3D inside the datacube before being projected along top-front-side projections. The innermost contour is fully opaque, while the others are set at 80% transparency to enable a see-through effect. The galaxies HCG 91a, b, c, and d are marked with green, blue, purple, and red spheres respectively. A large tidal tail originating to the southeast of HCG 91a is traced inside the 3D cube with a cyan line, and other elements of interest are marked with white and yellow cubes (see Vogt et al. 2015 for details). In the top panel, the black ellipse traces the beam size and orientation associated with the VLA data. An interactive version of this figure is accessible online as an interactive HTML document.

MathJax

$$f(a) = \frac{1}{2\pi i} \oint_{\gamma} \frac{f(z)}{z-a} dz$$

$$H_0 = \sum_{\lambda,i} E_i^\lambda a_{\lambda,i}^\dagger a_{\lambda,i} + \sum_Q \hbar \omega_Q \left(B_Q^\dagger B_Q + \frac{1}{2} \right) \quad (1)$$

as the non-interacting parts of the carrier–photon system, where $a_{\lambda,i}^\dagger$ and $a_{\lambda,i}$ are the creation and annihilation operators for electronic states, respectively. The corresponding operators for the photon, with a general mode index Q and energy $\hbar \omega_Q$, are B_Q^\dagger and B_Q . The carrier–carrier interaction is given by the Coulomb term

$$H_C = \sum_{\lambda,\lambda'} \sum_{i,j,k,l} V_{i,j;k,l}^{\lambda,\lambda'} a_{\lambda,i}^\dagger a_{\lambda',j}^\dagger a_{\lambda',k} a_{\lambda,l} \quad (2)$$

and the light–matter interaction is given by the dipole Hamiltonian

$$H_D = - \sum_{\lambda} \sum_{Q,i,j} [F_{\lambda;i,j}^Q B_Q + (F_{\lambda;j,i}^Q)^* B_Q^\dagger] a_{\lambda,i}^\dagger a_{\lambda,j} \quad (3)$$

The interaction-matrix elements in these are

$$V_{i,j;k,l}^{\lambda,\lambda'} = \frac{e^2}{4\pi \epsilon} \int d^3 r d^3 r' \frac{\xi_{\lambda,i}^*(\mathbf{r}) \xi_{\lambda',j}^*(\mathbf{r}') \xi_{\lambda',k}(\mathbf{r}') \xi_{\lambda,l}(\mathbf{r})}{|\mathbf{r} - \mathbf{r}'|}, \quad (4)$$

$$F_{\lambda;i,j}^Q = i \mathcal{E}_Q \mathbf{d}_{i,j}^{\lambda,\tilde{\lambda}} \cdot \int d^3 r \xi_{\lambda,i}^*(\mathbf{r}) \mathbf{u}_Q(\mathbf{r}) \xi_{\tilde{\lambda},j}(\mathbf{r}), \quad (5)$$

ADICIONALMENTE: Librarians services

Al visitar iopublishing.org/librarians/, el bibliotecario encontrara toda la información de su interés, como el catálogo, recursos de apoyo para los bibliotecarios, etc.

Librarians

Libraries are at the heart of great research and are fundamental to the success of their institutions. At a time when scientific research practices and access to content are going through significant changes, the library has become more important than ever.

We work with you to support the needs of researchers, students and faculties and to facilitate collaboration between library, publisher and researcher.

Open access at IOP Publishing

Making science open and accessible to as many people as possible is a priority for us. We are helping to create a new future in which universal access to physics research is a reality.

[Find out more about our commitment to an open future.](#)

We have a range of resources available to help you navigate the open access landscape and support your researchers and students to make the most of their open access publishing options:

- [Open access at IOP Publishing](#)
- [Library resources for transformative agreements](#)

Licensing content

Give your readers access to the journal content in a way that suits your organisation best, whether you represent the academic, government or corporate sectors.

[Find out more about licencing content](#)

Working with you to support your researchers

Our dedicated teams across the globe are here to help you acquire and licence the research we publish, and to ensure you get the best return on investment for your IOP Publishing content and services.

[Visit our librarian support hub](#)

Additional services for you and your community

We work with third parties to enhance the experience of our customers, authors and readers.

[Explore how our additional services can help your institution](#)

Library Advisory Boards

We work closely with an exclusive group of librarians through our regional Library Advisory Boards (LABs) for EMEA (Europe, Middle East and Africa), North America, Asia Pacific and India. When our members complete their term, they are invited to join our global IOP Publishing LAB Alumni Association to keep the conversation going.

[More about the LABs](#)

Did you know?

15,000

We work with more than 15,000 librarians worldwide

9,000

These librarians represent more than 9,000 institutions

149

There are 149 librarians in our global IOP Publishing LAB Alumni Association

BIENVENIDOS A IOP LATINOAMÉRICA

Bienvenidos al nuevo y mejorado sitio de IOPLatinoamérica, dedicado a presentar artículos y noticias científicos que son de interés para la comunidad científica de Latinoamérica, además de lo más destacado en la innovadora investigación de IOP Publishing.

IOP Publishing publica investigación científica de vanguardia para una audiencia global y es la casa editorial del Instituto de Física (IOP, por sus siglas en inglés), una sociedad sin fines de lucro con base en el Reino Unido. Todo excedente financiero acumulado por IOP Publishing es utilizado para apoyar iniciativas científicas a través de las actividades del instituto.

En IOP Publishing trabajamos junto con investigadores, bibliotecarios y asociados para publicar *journals* académicos de alta calidad, *ebooks* vanguardistas y minutas de conferencias que cubren la mejor y más novedosa investigación en las ciencias físicas y otros campos.
